Contents

No. 1 (February 1999) PAGE

Atosiban, an oxytocin receptor blocking agent: pharmacokinetics and inhibition of milk ejection in dairy cows O. Wellnitz, R. M. Bruckmaier, C. Albrecht and J. W. Blum 1

Heat-treated whole cottonseed: effect of dietary protein concentration on the performance and amino acid utilization by the mammary gland of dairy cows S. J. Mabjeesh, I. Bruckental and A. Arieli 9

Effect of endocrine and paracrine factors on protein synthesis and cell proliferation in bovine hoof tissue culture K. A. K. Hendry, A. J. MacCallum, C. H. Knight and C. J. Wilde 23

Spatial and temporal expression of insulin-like growth factor-I, insulin-like growth factor-II and the insulin-like growth factor-I receptor in the sheep fetal mammary gland I. A. Forsyth, G. Gabai and G. Morgan . . 35

Insulin secretion and intestinal peptides during lactation in sheep A. Faulkner and P. A. Martin 45

Structural features of a peptide corresponding to human κ-casein residues 84–101 by ^{1}H-nuclear magnetic resonance spectroscopy J. E. Plowman, L. K. Creamer, M. J. Liddell and J. J. Cross 53

Effects of high pressure and heat treatment on the mineral balance of goats' milk M. A. de la Fuente, A. Olano V. Casal and M. Juárez . . 65

Contribution of the lactoperoxidase system to the keeping quality of pasteurized milk N. E. Barrett, A. S. Grandison and M. J. Lewis . 73

Preparation and characterization of the N and C monoferric lobes of buffalo lactoferrin produced by proteolysis using proteinase K S. Sharma, T. P. Singh and K. L. Bhatia. 81

Use of conventional biochemical tests and analyses of ribotype patterns for classification of micrococci isolated from diary products F. Irlinger and J.-L. Bergère 91

Influence of thermophilic lactic acid bacteria strains on propionibacteria growth and lactate consumption in an Emmental juice-like medium A. Thierry, D. Salvat-Brunaud and J.-L. Maubois 105

Volatile reduced sulphur compounds in butter by solid phase microextraction D. Shooter, N. Jayatissa and N. Renner 115

Short communications

Influence of milking interval on the total bacterial count in a simulated automatic milking system A. R. Frost, T. T. Mottram, C. J. Allen and R. P. White 125

Effect of heat treatment on anti-rotavirus activity of bovine colostrum G. Mainer, E. Domínguez, M. Randrup, L. Sánchez and M. Calvo . 131

Production of calcium-reduced milks using an ion-exchange resin H. M. P. Ranjith, M. J. Lewis and D. Maw 139

Component PP3 from bovine milk is a substrate for transglutaminase. Sequence location of putative crosslinking sites E. S. Sørensen, L. K. Rasmussen and T. E. Petersen 145

No. 2 (May 1999) PAGE

Effect of feeding before, during and after milking on milk production and the hormones oxytocin, prolactin, gastrin and somatostatin B. Johansson, K. Uvnäs-Moberg, C. H. Knight and K. Svennersten-Sjaunja . . 151

Effect of stocking density and concentrate supplementation of grazing dairy cows on milk production, composition and processing characteristics B. O'Brien, P. Dillon, J. J. Murphy, R. K. Mehra, T. P. Guinee, J. F. Connolly, A. Kelly and P. Joyce 165

Effects of calcium soaps and rumen undergradable protein on the milk production and composition of dairy ewes R. Casals, G. Caja, X. Such, C. Torre and S. Calsamiglia 177

Effects of dietary protein supply on caseins, whey proteins, proteolysis and renneting properties in milk from cows grazing clover or N fertilized grass J. E. Hermansen, S. Ostersen, N. C. Justesen and O. Aaes . . 193

Changes in plasma and milk concentrations of glucose and IGF-1 in response to exogenous growth hormone in lactating goats A. Faulkner . . 207

pH-induced solubilization of minerals from casein micelles: influence of casein concentration and ionic strength Y. le Graët and F. Gaucheron . 215

Process steps for the preparation of purified fractions of α-lactalbumin and β-lactoglobulin from whey protein concentrates G. Gésan-Guiziou, G. Daufin, M. Timmer, D. Allersma and C. van der Horst . . 225

Deterioration of protein fraction by Maillard reaction in dietetic milks F. Evangelisti, C. Calcagno, S. Nardi and P. Zunin 237

Selection of dairy *Leuconostoc* isolates for important technological properties C. Server-Busson, C. Foucaud and J.-Y. Leveau 245

Purification and characterization of a lysine-*p*-nitroanilide hydrolase, a broad specificity aminopeptidase, from the cytoplasm of *Lactococcus lactis* subsp. *cremoris* AM2 M. Mc Donnell, P. Bouchier, R. J. Fitzgerald and G. O'Cuinn 257

Growth of *Debaryomyces hansenii* on a bacterial surface-ripened soft cheese M.-N. Leclercq-Perlat, A. Oumer, J.-L. Bergère, H.-E. Spinnler and G. Corrieu 271

Short communications

^{15}N enrichment of casein amino acids in the milk from goats given a single intravenous dose of L-[^{15}N]leucine J. Rubert-Alemán, G. Rychen, F. Casseron, F. Laurent and G. J. Martin 283

Expression of bovine β-lactoglobulin in the milk of transgenic mice A. Gutiérrez-Adán, E. A. Maga, E. Behboodi, J. S. Conrad-Brink, A. G. MacKinlay, G. B. Anderson and J. D. Murray 289

Multiple forms of lactadherin (breast antigen BA46) and butyrophilin are secreted into human milk as major components of milk fat globule membrane M. Cavaletto, M. G. Giuffrida, C. Giunta, C. Vellano, C. Fabris, E. Bertino, J. Godovac-Zimmermann and A. Conti . . 295

DNA probe for *Lactobacillus delbrueckii* subsp. *lactis* G. Giraffa and D. Mora 303

Single-step method for rapid detection of *Brucella* spp. in soft cheese by gene-specific polymerase chain reaction L. Serpe, P. Gallo, N. Fidanza, A. Scaramuzzo and D. Fenizia 313

Desorbed terpenes and sesquiterpenes from forages and cheeses C. Viallon, I. Verdier-Metz, C. Denoyer, P. Pradel, J.-B. Coulon and J.-L. Berdagué 319

Characterization of kefir grains grown in cows' milk and in soya milk A. G. Abraham and G. L. de Antoni 327

Sugar formulation effect on available lysine content of dulce de leche L. S. Malec, R. A. Llosa and M. S. Vigo 335

No. 3 (August 1999) PAGE

Managing diet quality for Cheddar cheese manufacturing milk. I. The influence of protein and energy supplements M. P. Christian, C. Grainger, B. J. Sutherland, J. J. Mayes, M. C. Hannah and B. Kefford 341

Managing diet quality for Cheddar cheese manufacturing milk. 2. Pasture *v.* grain supplements M. P. Christian, C. Grainger, B. J. Sutherland, J. J. Mayes, M. C. Hannah and B. Kefford 357

Usefully combining a series of unreplicated cheesemaking experiments M. C. Hannah 365

Respiratory burst activity in activated and unstimulated isolated bovine blood neutrophils during experimentally induced *Escherichia coli* mastitis K. Van Oostveldt, C. Burvenich, F. M. da Silva and A.-M. Masart-Leën 375

Characteristics of transport systems of L-alanine in mouse mammary gland and their regulation by lactogenic hormones: evidence for two broad spectrum systems R. Sharma and V. K. Kansal 385

Effects of phenolic compounds on the heat stability of milk and concentrated milk J. E. O'Connell and P. F. Fox 399

Effects of sheep α_{s1}-casein CC, CD and DD genotypes on milk composition and cheesemaking properties A. Pirisi, G. Piredda, C. M. Papoff, R. di Salvo, S. Pintus, G. Garro, P. Ferranti and L. Chianese . . . 409

Bovine immunoglobulin G, β-lactoglobulin, α-lactalbumin and serum albumin in colostrum and milk during the early post partum period D. LEVIEUX and A. OLLIER 421

Novel angiotensin-I-converting enzyme inhibitory peptides derived from recombinant human α_{s1}-casein expressed in *Escherichia coli* Y.-K. KIM, S. YOON, D.-Y. YU, B. LÖNNERDAL and B.-H. CHUNG 431

Chemiluminescent determination of xanthine oxidase activity in milk S. GIROTTI, S. LODI, E. FERRI, G. LASI. F. FINI, S. GHINI and R. BUDINI . 441

Short communications

Protein A gene polymorphism analysis in *Staphylococcus aureus* strains isolated from bovine subclinical mastitis M. C. DALLA POZZA, A. RICCI and G. VICENZONI 449

Estimating the costs associated with endemic diseases of dairy cattle R. M. BENNETT, K. CHRISTIANSEN and R. S. CLIFTON-HADLEY 455

Free radical formation in freeze-dried raw milk in relation to its α-tocopherol level H. STAPELFELDT, K. N. NIELSEN, S. K. JENSEN and L. H. SKIBSTED 461

Heat inactivation of the extracellular proteinase from *Pseudomonas fluorescens* 22F: inactivation during heating up and cooling periods E. P. SCHOKKER and M. A. J. S. VAN BOEKEL 467

Obituary: Dr M. Elisabeth Sharp 473

No. 4 (November 1999) PAGE

Effects of calcium soaps of rapeseed fatty acids and protected methionine on milk and composition in dairy cows Z. M. KOWALSKI, P. M. PISULEWSKI and M. SPANGHERO 475

Effect of stocking density on ewes' milk yield, udder health and micro-environment A. SEVI, S. MASSA, G. ANNICCHIARICO, S. DELL'AQUILA and A. MUSCIO 489

Study on the relationship between milk immune factors and *Staphylococcus aureus* intramammary infections in dairy cows R. PICCININI, V. BRONZO, P. MORONI, C. LUZZAGO and A. ZECCONI 501

Quantitative secretion and maximal secretion capacity of retinol, β-carotene and α-tocopherol into cows' milk S. K. JENSEN, A. K. B. JOHANNSEN and J. E. HERMANSEN 511

Associations among individual proteins and fatty acids in bovine milk as determined by correlations and factor analyses G. BOBE, D. C. BEITZ, A. E. FREEMAN and G. L. LINDBERG 523

Differential expression of bovine β-lactoglobulin A and B promoter variants in transiently transfected HC11 cells J. M. FOLCH, P. DOVČ and J. F. MEDRANO 537

Pressure denaturation and aggregation of β-lactoglobulin studied by intrinsic fluorescence depolarization, Rayleigh scattering, radiationless energy transfer and hydrophobic fluoroprobing H. Stapelfeldt and L. H. Skibsted 545

Butyric acid and tributyrin induce apoptosis in human hepatic tumour cells S. M. Watkins, L. C. Carter, J. Mak, J. Tsau, S. Yamamoto and J. B. German 559

Trace element determination in different milk slurries E. M. García, M. L. Lorenzo, C. Cabrera, M. C. López and J. Sánchez 569

Influence of the composition of Alpine highland pasture on the chemical, rheological and sensory properties of cheese S. Buchin, B. Martin, D. Dupont, A. Bornard and C. Achilleos 579

Minor and trace element content of two typical Italian sheep dairy products E. Coni, B. Bocca and S. Caroli 589

Light sensitivity of two colorants for Cheddar cheese. Quantum yields for photodegradation in an aqueous model system in relation to light stability of cheese in illuminated display M. Petersen, L. Wiking and H. Stapelfeldt 599

Relation between sensory texture analysis and rheological properties of stirred yogurt A. Skriver, J. Holstborg and K. B. Qvist 609

Short communications

Association of casein haplotypes with casein composition and size of micelles from Simmental × Red Holstein cows M. Braunschweig and Z. Puhan 619

Quantitative assessment of bacterial contamination of raw milk using bioluminescence L. Yu Brovko, V. G. Foundjian, V. S. Babunova and N. N. Ugarova 627

Occurrence of D-amino acids in a typical semi-hard cheese N. Innocente and G. Palla. 633
